

You can find every prediction the mystic Baba Vanga has made starting from next year all the way up until the year 5079, down below. You can also download this article as a PDF document.

- 2023 – The trajectory of our planet will adjust marginally.
- 2025 – Europe remains sparsely inhabited.
- 2028 – Humans create a fresh and innovative power source (Most likely Controlled Nuclear Fusion). World hunger is eradicated. Humans step foot on Venus for the very first time.
- 2033 – Sea levels rise due to climate change.
- 2043 – The international economy is booming. Europe becomes Islamic.
- 2046 – Synthetic organs become readily available en masse. Transplants have become commonplace.
- 2066 – While besieging Rome (which is at this point Islamic) the US discovers a new type of weapon classed as an "environmental destructor", it can immediately freeze anything in its path.
- 2076 – The social caste system collapses, resulting in marxist socialism.
- 2084 – Nature revives itself.
- 2088 – A new virus appears which makes people get old in the matter of a few seconds.
- 2097 – The virus is exterminated.
- 2100 – An artificial sun heats up the dark part of the Earth.
- 2111 – Humans become increasingly robotic, resulting in a scenario much like that in the movie "Terminator".
- 2123 – Small nations constantly wage war while the major superpowers refuse to step in.
- 2125 – A space agency in Hungary receives signals from deep space. Baba Vanga comes into the public eye again.
- 2130 – Societies are being constructed undersea with the aid of extraterrestrial beings.
- 2154 – Animals evolve to be human-like.
- 2167 – There is a brand-new religion that becomes popular around the world.
- 2170 – The Earth becomes dry and desertified.
- 2183 – The Mars colony becomes self-sufficient and demands sovereignty and separation from Earth.
- 2187 – A few volcanic eruptions are successfully suppressed.
- 2195 – The underwater communities become fully autonomous by producing their own power and food.
- 2196 – There are no longer European and Asian races as they mix and form the Euro-Asian genome.
- 2201 – The Sun gets colder and the Earth goes through massive climatic changes.
- 2221 – Humans come to horrifying realizations while scouring the universe for aliens.
- 2256 – A returning rocket brings an intergalactic virus back to Earth.
- 2262 – Planetary trajectories experience fast adjustments, which puts Mars in danger of being destroyed by an asteroid.
- 2271 – Physical constants fundamentally change, resulting in incompatibilities with our current physical formulas.
- 2273 – The Euro-Asian genome mixes with the African race, creating the Afro-Eurasian race.

2279 – Scientists discover that energy can be created out of nothing by way of black holes and space bending of matter.

2288 – Time traveling is discovered. Aliens and humans make contact.

2291 – The sun gets significantly colder and humans try to reheat it.

2296 – Solar flares become commonplace. The gravitational pull experiences modifications, resulting in the Space Station and satellites crashing down on earth.

2299 – France leads a guerilla war against the Islamic state.

2302 – The justice system has major reforms and innovations, and a lot of universal values and laws are discovered.

2304 – Humans study the Moon thoroughly.

2341 – The Earth is in grave danger from something in outer space.
